The existing Twin lobe rotary air blower (two nos.) of ETP Plant is 08/09 years old and most of its part is worn out and it causes excess noise and requires maintenance more often, most of the time it is not working properly. In view of above it is kindly requested to procure one no. of new set of twin lobe rotary air blower for smooth functioning of ETP plant and in future we may use this blower as spare in case of maintenance of other blowers.
